PROFILE

I'm a highly skilled MERN Stack developer proficient in React.js, Node.js, Express.js, and MongoDB. I excel in designing, developing, and deploying robust web applications with clean code and best practices. Passionate about creating user-centric and scalable solutions, I craft intuitive UIs and efficient server-side logic. Skilled in RESTful API design and debugging.

INTERNSHIP AND WORK EXPERIENCE

MERN Stack Developer **Jun 2024 - Present**
Doctosmart Enterprises Pvt Ltd Calicut, Kerala

- Developed and optimized user interfaces using modern JavaScript frameworks (React)
- Collaborated with back-end teams to ensure seamless integration and data exchange
- Provided comprehensive training on MERN stack technologies (MongoDB, Express.js, React, Node.js)
- Designed and built custom websites tailored to client requirements

ME(A)RN Stack Developer Intern **Aug 2023 - Mar 2024**
Luminar Technolab Calicut, Kerala

- Achieved significant growth in development using MERN stack and MEAN stack
- Developed a fully functional Hospital Appointment Booking website using MERN Stack
- Developed a fully functional E-Commerce website using MEAN Stack

RELEVANT SKILLS

Front-end : React Js , Angular , HTML , CSS ,Tailwind CSS , Bootstrap

Languages : JavaScript , TypeScript , Python

Back-end : Node Js , Express Js

DataBase : MongoDB

PROJECT

Career Steersman Website

I successfully developed a user-friendly EdTech platform, <https://careersteersman.com/>, using the MERN stack, incorporating features like interactive learning modules, personalized recommendations, and progress tracking, resulting in a seamless user experience and high client satisfaction.

WEBGRAM - Social Media Web Application

I successfully developed a dynamic social media web application using the MERN stack and Firebase, incorporating features like user registration, post interactions (likes, comments, saves), user following, story sharing, and profile management. The application prioritizes secure authentication, real-time updates, and a seamless user experience.

Hospital Appointment Booking Web Application (MERN)

T-Shirt - E-commerce Web-Application (MEAN)
